Re: Request for Ethics Opinion

Dear Sir or Madam:

I am writing to request an ethics opinion. My name is Trenton Broussard and I am employed as a laborer at the City of Jennings in the Street Department. I also own and operate Pro Tractor Worx, LLC, which is a bushhog/dirt business, on my time off. The City of Jennings Inspector's office is responsible for neglected and blighted properties in town, which includes clearing debris and cutting the grass on those properties. If the property owner fails to comply after proper notification from the city, then the city accepts bids to clear the property. Once a bid is accepted and the work is completed, the city pays for the work done on those properties. The cost is billed to the non-compliant property owner. I would like to respectfully reference Louisiana Ethics CN 96-131 in this matter. In conclusion, I would like to know if as an employee of the Street Department (not the Inspector's office), would it be an ethics violation for me to bid on and cut those neglected properties on my personal time (afterhours & weekends)?

Thanking you in advance for your cooperation, I remain,

Sincerely,

Trenton S. Broussard
